

MEMORANDUM

December 19, 2007

TO: Governor Jennifer Granholm
Senator Mark Jansen
Senator Nancy Cassis
Representative Richard Hummel
Representative Barb Byrum

FROM: Michael R. DeVos
Executive Director

RE: FY 2007 Housing Production Goals Report

Section 32(14) of P.A. 346 of 1966, as amended, requires the Michigan State Housing Development Authority (MSHDA) to provide the Governor and the appropriate legislative committees with an annual housing production goals report for housing projects financed with bonds and notes by the Authority. The following represents an assessment of FY 2007 production and the Authority's goals for FY 2008. The Authority's fiscal year runs from July 1 through June 30.

I. FY 2007 Production Report

Section 32(16)(a) requires that the Authority report as to whether the production goals for the previous twelve months have been met, and if not, to explain the reason why.

The Authority's met its FY 2007 goal to finance 5,515 new and rehabilitated units, producing 5,865 units. The Authority missed its goal to make \$419.7 million in loans by \$16.9 million, instead making \$402.8 million in loans in FY 2007. A discussion about specific programs is contained in the next section and a list of programs, goals, and production follows.

In FY 2007 the Authority distributed over \$66 million in grants to local governments and nonprofit organizations. In addition, the Authority administers the Low Income Housing Tax Credit for the state, which helped to create 2,224 units of affordable rental housing in 38 developments statewide. The Authority also administers the federal Housing Choice Voucher Program (Section 8), and in FY 2007, an average of 23,689 families received housing assistance through this program.

Multifamily Loan Programs

Tax-Exempt Direct Lending Programs

This program represents the Authority's response to localized housing and reinvestment needs by financing rental housing. Funding comes from the issuance of tax-exempt bonds to investors; proceeds are then loaned for construction, rehabilitation, and long term financing. At least 40% of the units must be occupied by households with low incomes (60% of AMI). The TEAM program operated in FY 2007 with a fixed interest rate of 6.0%. For the HOME TEAM Advantage program, financing smaller developments in rural areas, the interest rate was 5.0%. MSHDA's Preservation lending

parameters were significantly changed in April of 2006. As a result, the interest rate, published weekly, ranges from 6.03% to 7.05%.

In FY 2007, this program financed 2,561 rental units in 28 developments, with a total MSHDA investment of \$127,868,084. The fiscal year's goal was 2,000 units with total investment of \$120,000,000. The Authority exceeded its goal in this program.

Modified Pass-Through Program

This program permits the Authority to issue limited obligation bonds on behalf of developers. Sixty percent of the units must be for renters at 60% of area median income or below. The Authority's primary responsibility is to evaluate the degree to which the borrower's credit security is sufficient to ensure repayment of the bonds.

Five loans closed under this program in FY 2007, representing an investment of \$54,330,000 and creating 947 units. The fiscal year's goal was 800 units with an investment of \$50,000,000, and the Authority exceeded its FY 2007 goal in this program.

Single Family Mortgage Loan Program

This program allows the Authority to finance low and moderate-income mortgages for people meeting income and purchase price limits. The loans are fixed rate, level payment, 30-year mortgages. Optionally, the borrower may elect to take a lower rate for the first three years, to be followed by a higher rate for the remaining term of the mortgage loan. Borrowers must have acceptable credit and the ability to repay the loan. In some areas, federal law permits MSHDA loans only for first-time homebuyers.

In FY 2007, this program financed 1,618 single-family units, representing a total investment of \$161,762,087. The average purchaser of an existing home was 31 years of age, with a household size of two and an average income of approximately \$40,415. The average loan amount was \$98,847. The FY 2007 goal was 1,750 units. The Authority missed its goal in this program by 132 loans, likely due to a decrease in single-family home sales.

Michigan Mortgage Credit Certificate Program

This program, authorized by Congress in 1984, reduces the amount of federal income tax a homebuyer pays, thus giving the person more available income to qualify for a conventional mortgage and make house payments. Potential homebuyers must meet income and purchase price limits. The lender sets loan terms. The Authority has to turn in a portion of its allocated mortgage revenue bond authority to the U.S. Treasury to utilize the Mortgage Credit Certificates.

In FY 2007, the program assisted the financing of 603 single-family units. The total investment was \$56,782,741. The average age of a MCC recipient purchasing an existing home was 30; the average family size was two. The average household income was approximately \$33,458, and the average home sale price was approximately

\$97,729. The FY 2007 goal was 800 units and \$75,600,000. The Authority missed its goal due to the suspension of this program on 12/31/06.

Supportive Housing and Homeless Initiatives Programs

Homeless Housing Development Programs

This program represents the Authority's investment into new construction and acquisition/rehabilitation of projects for the homeless. Funding comes from MSHDA reserves and a mandatory 25% local match. Units are made available to tenants earning 30% or below of Area Median Income. Loans are structured as a zero percent, non-amortizing repayable loan, although for every 10 years of successful operation, 25 percent of the loan is forgiven.

Homeless Grants

Under this category, \$5,000,000 is allocated to match and supplement HUD's Emergency Shelter Grant (ESG) Program. The ESG program offers financial assistance to public and non-profit organizations that are responding to the needs of homeless populations through a Continuum of Care process. ESG funds can be used for shelter operation, essential services, prevention, or Continuum of Care coordination. Grants known as Homeless Facilities Grants are awarded to nonprofit shelter providers to repair shelter structures. Grants, which require dollar-for-dollar matching funds, can be used for such repair items as new roofing, furnace repair, and flooring. Critical Needs Grants are awarded to nonprofit shelter when an immediate, required repair is needed in order to prevent the closure of a shelter.

Tenant Based Rental Assistance Program

MSHDA uses a combination of MSHDA and federal HOME dollars to administer the Tenant Based Rental Assistance Program (TBRA). MSHDA awards funds to nonprofit agencies throughout the state to administer the program. TBRA provides a two-year rental assistance program to homeless families with children, chronically homeless, homeless youth, and survivors of domestic violence.

Property Improvement Loan Program

This program helps preserve older, existing housing by offering loans to homeowners that meet income limits. In FY 2007, this program made 136 loans, totaling \$2,068,092. Fifty-four percent of these loans were to borrowers over 45 years of age, and approximately 84% of the loans went to improve homes that were 40 years of age or older. The FY 2007 goal was 165 loans totaling \$2,300,000. The Authority missed its goal in this program likely due to the overall economic turndown in Michigan.

II. Summary of FY 2008 Production Goals

FY 2008 Production Goals Summary July 1, 2007 to June 30, 2008		
Program	Funds	Units/Loans
Multifamily Direct Lending	\$220,000,000	4,400
Modified Pass-Through Loans*	\$0	0
Single Family Loans	\$250,000,000	2,500
Michigan Mortgage Credit (MCC)*	\$0	0
PIP Loans	\$2,300,000	180
TOTAL	\$472,300,000	7,080
*The Authority's future goal for the Pass-through program will be dependent on bond cap allocated by Treasury. The MCC program is currently suspended.		

III. Other Information

Social and Economic Benefits

Section 32(16)(b)(c)(d)(e) and (f) requires the Authority to report on the social and economic benefits of MSHDA's housing projects to the immediate neighborhoods and the cities in which they have been constructed, the extent of direct and indirect displacement of lower income persons, and the extent of additional reinvestment activities attributable to the Authority's financing of these projects.

The obvious short-term benefits are the increased availability of quality, affordable housing for low and moderate income people, increased construction contracts and sales for builders and realtors, and increased Community Reinvestment Act production for local lenders. Further, the multifamily developments financed by the Authority employ people who receive salaries and expend dollars for vendor services.

Developments also provide common space designed to enhance the community. Within these spaces many developments allow local senior citizen groups to provide meal service, medical examinations, and classes of various kinds. In other developments, there are police mini-stations, food cooperatives, book exchanges, craft shows, neighborhood watch programs, senior pal programs, and youth work programs.

The Authority requires, as part of the underwriting process, that relocation planning be performed and implemented in any situation where a MSHDA loan would result in the displacement of lower income people. As a matter of policy, the Authority avoids approval of loans where such displacement cannot be adequately addressed.

Demographic Information

Section 32(16)(g) requires the Authority to report on the age, race, family size, and average income of the tenants in housing projects.

EXHIBITS II, III, AND IV DETAIL DEMOGRAPHIC INFORMATION FOR THE SINGLE FAMILY, MCC AND PIP PROGRAMS IN FY 2007.

The information for Multifamily projects closed in FY 2007 is unavailable because these developments are still under construction and not yet occupied.

Construction Jobs Created, Wages and Taxes Paid

Section 32(16)(h) requires the Authority to estimate the number of construction jobs created, wages paid, and taxes and payments in lieu of taxes paid.

EXHIBIT V ESTIMATES THE NUMBER OF CONSTRUCTION JOBS CREATED, WAGES PAID, AND TAXES PAID IN FY 2007.

Authority-financed housing created approximately 2,772 jobs, paid approximately \$185 million in wages, and resulted in approximately \$65 million in taxes being collected.

Grants Made to Local Units of Government and Non-Profit Housing Service Providers

In FY 2007, 456 grants were made to Local Units of Government and Non-Profit Housing and Service providers, for a total grant expenditure of \$66 million.

EXHIBIT VI DETAILS THE GRANTS MADE TO LOCAL UNITS OF GOVERNMENT AND NON-PROFIT HOUSING AND SERVICE PROVIDERS.

Mobile Home Parks, Non-Profit Housing Projects, and Cooperative Programs

Section 32(16)(i) requires the Authority to report on the progress in developing mobile home parks and mobile home condominium projects, constructing or rehabilitating consumer housing cooperative projects, and in financing construction or rehabilitation of non-profit housing projects.

In FY 2007, no mobile home parks were financed under the Authority's Michigan Mortgage Credit Certificate Program or Single Family Program.

Neighborhood Preservation Program

Section 32(16)(j) requires the Authority to report on the progress in developing the Neighborhood Preservation Program.

The original Neighborhood Preservation Program began in 1989 and financed approximately 429 units of small-scale multi-family housing units. The program was

evaluated, changed, and re-introduced in 1998. The goals of the program are to positively impact the image, physical conditions, and market and neighborhood management of the target neighborhoods. Since 1998, approximately \$26,538,130 in grants/loans has been made in 33 communities across the state. Twenty-seven grants have been made to the City of Detroit or other communities in Wayne county; 46 to medium to large cities; 15 to UP communities, and the balance to small towns.

Each NPP produces housing units either through new construction, rehabilitation of space for rental units (usually above businesses downtown), or purchase/rehab for resale. In addition, each project includes homeowner rehabilitation, beautification through banners, landscaping and/or neighborhood signs, and marketing activities to improve the image of the neighborhood.

Prepayment of Federally and Authority Assisted Loans

Section 32(16)(k) requires the Authority to report on the status of federal programs that assist low income tenants displaced as a result of prepayment of federally or Authority assisted loans.

In FY 2006 the Authority adopted new preservation lending parameters for Section 236, Section 8, and all other federally assisted and MSHDA-financed rental housing. This housing stock, that currently serves Michigan's lowest income citizens and was typically built between 1974 and 1985, is in need of rehabilitation and preservation.

The Authority offers tax-exempt and taxable preservation lending to extend the affordability, viability, and livability of this existing rental housing for a minimum of 35 years. A Preservation Fund loan may be available as additional gap financing for eligible developments in the event the Authority determines the transaction will not adequately address unmet physical needs. No tenants are displaced as a result of these transactions.

Low Income Housing Tax Credit

Section 32(16)(l) requires the Authority to report on the status of the Low Income Housing Tax Credit (LIHTC) including the amount of tax credits allocated, projects that have received tax credits, reasons why projects were denied tax credit, a geographical description of the distribution of tax credits, and a description of any amendments to the allocation plan made during the year.

During FY 2007, the Authority allocated \$17.8 million in tax credits to 38 developments helping create 2,224 units of affordable housing

EXHIBITS VII AND VIII PROVIDE A GEOGRAPHIC DESCRIPTION OF CREDITS ALLOCATED AND A LIST OF PROJECTS DENIED CREDIT, WITH REASONS FOR DENIAL.

No changes were made to the Qualified Allocation Plan in FY 2007.

Education and Training Opportunities

Section 32(16)(m) requires the Authority to report on education and training opportunities provided by the Authority including the types of education and training and the amount of funding committed to these activities. Education and training opportunities provided by the Authority primarily include the Contractor's Assistance Program and our Technical Assistance efforts. The Contractors Assistance Program is discussed below.

The Authority provided Technical Assistance to nonprofit housing organizations throughout the state with 69 contracts made to 40 different Technical Assistance providers, at a total cost of \$1,216,324.

EXHIBIT IX DETAILS GRANTS MADE TO TECHNICAL ASSISTANCE PROVIDERS FOR FY 2007.

Contractors Assistance Program

Section 22(bb) requires the Authority to report on the status of the Contractors Assistance Program (CAP). The CAP was introduced in 1992 to provide business training for small, minority, or women-owned contractors. In addition to the semi-annual classes held in Detroit, Grand Rapids and Flint, two Cities of Promise, Benton Harbor and Muskegon Heights held successful classes. A total of 130 Michigan contractors gained skills in bidding and estimating, bookkeeping and finance, bonding and insurance, wage and labor issues, permits, and business planning and marketing.

Housing Choice Voucher Program

The Housing Choice Voucher (HCV) Program utilizes the private rental market to assist Michigan's extremely low income families to afford decent, safe, and sanitary housing. Residents live in single family or multifamily rental dwellings, paying between 30% and 40% of their gross income for rent. In FY 2007, an average of 23,689 families participated in this program; the average age for the head of household was 46 years, and the average adjusted household income was \$10,437. MSHDA's HCV Program also has components for Family Self-Sufficiency (FSS) and for Homeownership called Key to Own. Both these programs promote and provide education and opportunities for families to become economically self-sufficient and end the cycle of assistance to recycle the voucher to additional families in need.

MSHDA administers the largest FSS program in the nation with 2,000 allocated slots. The FSS Program promotes economic independence. Families living in assisted housing are often subject to a multitude of personal and financial troubles including a dependence on social service programs, and a limited ability to change their status. Families often want out of this situation, but feel they are faced with insurmountable barriers. The FSS Program provides for coordination of local, community-based resources that promote economic independence for a families living in assisted housing.

The Key to Own Homeownership Program assists MSHDA HCV families with transferring their rental voucher into a homeownership voucher. Partnering with the FSS Program the Key to Own Program provides pre/post purchase counseling and additional guidance throughout the homeownership process. In FY 2007 The FSS program graduated 164 program participants and the Key to Own Program closed on their 87th home.

Michigan Broadband Development Authority

Section 32(17) requires the Authority to conduct an annual review of all loans and financial instruments that require repayment, or lines of credit with the Michigan Broadband Development Authority (MBDA). The review shall contain an analysis of the MBDA's ability to repay all loans, financial instruments that require repayment, and lines of credit with the Authority and the amount and payment schedule of all current loans, financial instruments that require repayment, and lines of credit with the Authority. The review shall also contain an analysis of the number of Authority assisted or financed developments and homes purchasing high-speed Internet connections at substantially reduced rates as a direct result of loans from the MBDA.

EXHIBIT X DETAILS THE REVIEW OF ALL AUTHORITY FINANCED LOANS, FINANCIAL INSTRUMENTS OR LINES OF CREDIT, AND REPAYMENT SCHEDULES ADMINISTERED BY THE BROADBAND AUTHORITY.

REPORT OF THE MICHIGAN BROADBAND DEVELOPMENT AUTHORITY

FY 2007 (07/01/06 TO 06/30/07)

Throughout the year 2006, the Michigan Broadband Development Authority (MBDA) has restructured and reassessed the organization's goals and mission. In April of 2007 the MBDA will cease its lending activities, and will cease its operations. The MBDA has approved more than a dozen loans for more than \$31 million. Loans to these providers are now helping to deploy cutting edge technologies across the state, impacting more than 375 cities, townships and villages. While the size of the MBDA's loan portfolio seems modest in historical telecommunication investment terms, new broadband technologies are more cost-efficient and the MBDA's loans will leverage an impact on more than 78% of the counties in the State of Michigan.

With regards to the loan portfolio performance, all of the MBDA loans have performed well. The MBDA has worked directly with dozens of companies and consulted with roughly 45 local government organizations in Michigan to support broadband expansion efforts. The MBDA reviews its loan applications similar to an investor, and does not simply 'give' the money away to fledgling start-ups. This is supported directly with the fact that 100% of our loan portfolio is in 'good' standing. The requirements to which the loan applicants have to meet are detailed and explicit. Since inception in 2003, the MBDA has rejected nearly three times as many loan requests as it has approved-working diligently to ensure that borrowers have a business plan and the technological and financial sophistication to succeed.

The Governor's Rural Broadband Initiative (RBI) was launched with a Request for Proposal (RFP) that was released on November 30, 2005. \$17 million was made available at a reduced interest rate of 4 percent. With respect to the \$17 million RBI loan monies, the MBDA has been able to work with seven different companies, having to-date approved \$13.1 million in loans and is in the process of performing due diligence on another \$3.8 million in loans. The MBDA will transition the loan portfolio to MSHDA, where the loan portfolio will continue to be monitored and any adjustments to existing loans can be made as needed.
